

We believe in putting your health first.

"I'll soldier on." "I'll get it on the weekend." "I'm running low on my medication but I'll probably be OK."

Too often, life gets busy or in the way of our good health. Chemist2U was founded upon the belief that the best way to help people take better care of themselves and their loved ones is by removing the hurdles that prevent them from doing so. Rest easy and don't worry about going to the chemist, let us come to you.

3 Simple Steps

Step 1

Download the App.

Step 2

Tell us what you need.

Step 3

We'll deliver to your door within the same day.

Download now

Visit the App Store or Google Play to download Chemist2U today.

Busy?

Medicine delivered to your door, same day.

First Delivery Free!

Get well sooner.

If you're too busy to get to the chemist, stuck at home or at work, simply tap on our app and take a photograph of your prescription. Then tell us what you need and we'll deliver to your door within the same day.*

Benefits

We put your health first.

It's called 'bed rest', not 'waiting in line at the chemist rest.' That's why we bring your medicine right to you, when you need it, wherever you are.

Sick baby? We'll come to your crib.

Nurse your sick child back to health without leaving home. We deliver infant medication, nappies, milk formula and more. Parents and children can rest easy, knowing help is on the way.

Care for the whole family.

You can manage prescriptions for the whole family by setting up a medical profile for each individual. This enables you to order prescriptions for you, your partner, your children and anyone else who lives with you in your household.

More than just medicine
