

# NDIS

## What you need to know about managing your money.

**Plan management** is one of the options you have for managing the money in your NDIS Plan.

Plan management gives you choice and control over how you use your NDIS budget and also gives you the support of a plan manager who pays your bills and helps you manage your budgets.

Anyone can choose to have plan management added to their NDIS Plan and there are no out of pocket expenses.

**Leap in!** is Australia's leading NDIS plan manager. We're a not-for-profit and registered charity and we put people first.

**Leap in!**
